This game has clever puzzles where you have to use and abuse physics and the rules of the game to be able to solve them. It\u00b4s fun, I like it.. I would recommend this game if you're looking for some easy\/medium difficulty puzzle-type experience. Very cute, minimalistic design, the controls take a little bit of practice to master (for me many-many fallen and broken boxes resulted from the learning curve. :D), but it is so rewarding to be able to advance! I find the level difficulty and the unlock progression to be well balanced, they keep you wanting to continue, although I did have the occassional rage-quit moments.. The music fits the overall style nicely as well!

A solid 7\/10 from me! :). Its a very cool game.Strongly recommend.A lot of puzzles and thinking,time killer ;)
